## BEATING THE DRUMS OF WAR

### **Iran: There will be war – and we'll win**

*WND.com* reports: "Just days after the breakdown of talks with the West over Iran's nuclear program, the deputy chief commander of the Revolutionary Guards announced that there soon will be war – and that Allah will ensure his forces are victorious.

The last round of talks between Iran and the P5+1 (the United States, Britain, France, China, Russia and Germany) ended in Moscow without any agreement on Iran's illicit nuclear program.

Gen. Hossein Salami, in a televised interview, boasted that, 'Iran has complete control of all the enemy's interests around the world and is on a path to reach equivalency with world powers.' The commander emphasized that Iran's nuclear program is irreversible, the *Islamic Republic News Agency* reported.

Salami said war is inevitable, and the Iranian forces are ready..." **(Ezekiel 38:5 has Persia, which changed its name to Iran in 1935, aligned with Russia for World War III. They lose – Ezekiel 39:1, 2, 6, 12, and 13. This will make the boastful and arrogant**

headline above a lot of Iranian hot air. See the next two reports.)

### **Report: U.S. sends forces to Persian Gulf ahead of possible clash with Iran**

*Haaretz* reports: "The United States is building up its naval power in the Persian Gulf in response to threats by Iranian officials to close the Strait of Hormuz in case of further sanctions, the *Los Angeles Times* reported.

The report came after U.S. defense officials told the *New York Times* that American forces have been quietly introduced into the Persian Gulf in an attempt to deter Iran from blocking the strategic waterway, and to increase strike capability in case the nuclear standoff with Iran escalates to a military confrontation.

According to the report, the deployments were meant to bolster the U.S. military presence in the region while reassuring Israel that the Iranian nuclear issue is being handled.

The *New York Times* report quoted an unnamed 'senior Defense Department official' who said, 'The message to Iran is, 'Don't even think about it.' Don't even think about sending your

fast boats out to harass our vessels or commercial shipping. We'll put them on the bottom of the gulf.'..."

### **U.S. warships 'easy' target for Iran**

*WND.com* reports: "With no new progress in recent talks in Moscow between Iran and the West along with tougher sanctions being implemented by the European Union against Iranian oil exports, Iran has warned that U.S. naval warships could be 'easily reached and attacked' if Israel or the United States attacks Iran's nuclear sites, according to Joseph Farah's *G2 Bulletin*.

Recent talks in Moscow that included Britain, China, France, Russia and the U.S. along with Germany – known as the P5+1 who comprise the United Nations Security Council – failed to reach an agreement on Iran's enrichment program, which the West believes is going to be used to make nuclear weapons...

The warning against U.S. warships that patrol the Persian Gulf and the Strait of Hormuz came from General Morteza Miriyan, the deputy lieutenant commander of the Iranian

Revolutionary Guard Corps Ground Force for Operations.

He said more than 3,000 boats and dhows are trafficking, fishing and doing trade in the regional waters, and 'they always go past the U.S. military ships from close distances.'

'Now, the question is, how does the U.S. want to fight with us, while we enjoy such a backup?...'

### **IRGC Warns to give crushing response to enemy attack**

*The Fars News Agency* reports: "A senior commander of the Islamic Revolution Guards Corps underlined the Iranian nation's full preparedness to repel enemy pressures and threats, and reiterated that the IRGC will give a swift and crushing response to any possible enemy attack.

Commander of the IRGC Ground Forces Brigadier General Mohammad Pakpour said that the Iranian Armed Forces and the IRGC ground forces in particular will give a crushing response to any threats against the Islamic Revolution.

The IRGC ground forces are in good combat readiness and are determined to seriously deal with any threat, he said.

Earlier, the IRGC Aerospace Force wrapped up three days of massive missile drills, codenamed Payambar-e Azam 7 (The Great Prophet 7).

Iran's Defense Minister Brigadier General Ahmad Vahidi had also that the wargames demonstrated the Iranian Armed Forces' might and capabilities as well as their full knowledge of the vulnerabilities and weak points of those who utter useless threatening remarks against Iran and its Islamic establishment every now and then.

'The wargames also showed that those who have ill intention for our country should expect to receive this strong response (from Iran),' Vahidi noted...' (The Judeo-Christian God Yahweh and the Lord Jesus Christ

### **Iran says can destroy U.S. bases "minutes after attack"**

*Reuters* reports: "Iran has threatened to destroy U.S. military bases across the Middle East and target Israel within minutes of being attacked, Iranian media reported as Revolutionary Guards extended test-firing of ballistic missiles into a third day.

Israel has hinted it may attack Iran if diplomacy fails to secure a halt to its disputed nuclear energy program. The United States also has mooted military action as a last-resort option but has frequently nudged the Israelis to give time for intensified economic sanctions to work against Iran.

'These bases are all in range of our missiles, and the occupied lands (Israel) are also good targets for us,' Amir Ali Haji Zadeh, commander of the Revolutionary Guards aerospace division, was quoted by *Fars* news agency as saying.

Haji Zadeh said 35 U.S. bases were within reach of Iran's ballistic missiles, the most advanced of which commanders have said could hit targets 2,000 km (1,300 miles) away.

'We have thought of measures to set up bases and deploy missiles to destroy all these bases in the early minutes after an attack,' he added.

It was not clear where Haji Zadeh got his figures on U.S. bases in the region. U.S. military facilities in the Middle East are located in Bahrain, Qatar, the United Arab Emirates, Kuwait and Turkey, and it has around 10 bases further afield in Afghanistan and Kyrgyzstan.

Defence analysts are often skeptical about what they describe as exaggerated military assertions by Iran and say the country's military capability would be no match for sophisticated U.S. defence systems...'

### **MP: Missile wargames show Iran's superiority over U.S. bases in region**

*The Fars News Agency* reports: "A senior Iranian lawmaker lauded the achievements of the recent missile wargames conducted by the Islamic Revolution Guards Corps (IRGC), and underlined that drills showed Iran's full information about the U.S. bases in the region.

The IRGC Aerospace Force wrapped up three days of massive missile drills, codenamed Payambar-e Azam 7 (The Great Prophet 7).

The U.S. has received the message of the Great Prophet 7 missile drills, member of the parliament's National Security and Foreign Policy Commission Seyed Baqer Hoseini said, and stressed that Iran's Armed forces have detailed information about U.S. military bases in regional countries.

He added that all military drills by the Iranian Armed Forces signify the full preparedness of the Iranian Armed forces to defend Iran's territorial integrity...'

### **Iran claims 'war games' test missile attack on Israel**

*Israel National News* reports: "Iran claims it tested 'tens' of short, medium and large-range missiles at a hypothetical enemy base,' presumably Israeli and American.

*Fars News Agency*, affiliated with the Revolutionary Guards, reported that the Guards Aerospace Force missile units 'fired tens of Shahab 1, 2 and 3, Fateh, Qiyam, Persian Gulf and Zelzal missiles at a hypothetical enemy air base - which IRGC officials had earlier said is a replica of the air bases of the trans-regional powers (the U.S.) - in Iran's Lut Desert simultaneously.'

'Long, medium and short-range surface-to-surface missiles will be fired from different locations in Iran... at replica airbases like those used by

the trans-regional military forces,' Brigadier General Amir Ali Hajizadeh said.

The latest 'Great Prophet 7' war games 'appeared to underline Tehran's threat to strike U.S. military bases in the neighboring countries - in Afghanistan, Bahrain, Kuwait and Saudi Arabia - if it comes under attack by Israel or the United States,' according to *Fars*.

The ballistic missile is capable of striking Israel, which is within range of the Shahabobjecti3, which Iran claims can strike up to 2,000 kilometers (1,200 miles) away, nearly twice the distance between Iran and Israel..." **(Ahmadinejad, present president of Iran and his leaders are all egotistical braggarts. Their goal will be the elimination of Israel – Psalm 83:4**

### **Pentagon: Iran boosts missiles' lethality**

*The Jerusalem Post* reports: "Iran's military has 'boosted the lethality and effectiveness of existing' ballistic missile systems with 'accuracy improvements and new sub-munition payloads,' according to a Pentagon report. Portions of the document were declassified after having been presented to Congress.

The Pentagon report, obtained by *Bloomberg*, specifically notes that Iran's short-range ballistic missiles are

evolving toward an operational ability to target sea vessels.

The report, dated June 29, 2012, according to *Bloomberg*, is signed by U.S. Defense Secretary Leon Panetta and says the new Iran abilities 'extend the destructive power over a wider area than a solid warhead.'

Iran's military improvements are occurring in parallel with regular ballistic-missile training that 'continues throughout the country' and the addition of 'new ships and submarines,' the report concluded.

The report repeats the long-standing U.S. assessment that Iran with 'sufficient foreign assistance may be technically capable of flight-testing' an intercontinental ballistic missile by 2015..."

# NEWS FROM ISRAEL AND THE MIDDLE EAST

### **Iran leader: We must prep for 'end of times'**

*WND.com* reports: "Iran's supreme leader, for the first time, is telling his nation that it must prepare for war and 'the end of times' as it continues to develop nuclear weapons.

State-owned media outlets, in a coordinated effort, all ran a similar story highlighting Ayatollah Ali Khamenei's message on the coming of the last Islamic messiah.

Until now, the Iranian media would mostly quote clerics from seminaries on the issue of the last Islamic messiah to avoid the regime being labeled messianic. However, the wide publication of Khamenei's statements on a need to prepare for the end of times as it confronts the West over its illicit nuclear program is alarming to Western leaders...

Shiite theology holds that great wars

must engulf the Earth, during which one-third of the world's population will die in the fighting and another third from hunger, lawlessness and havoc. Israel is to be destroyed, and only then will the 12th imam, Mahdi, reappear and kill all the infidels, raising the flag of Islam in all corners of the world..." **(The above warning should be sounded from every pulpit in America and Canada. The Islamic goal to raise their flag over all the world is not an idle threat. Five global Islamic leaders are sounding the same warning. Citizens of North America horrendous days are ahead. ### **Muslim cleric: Jerusalem to be Egypt's capital**

*WND.com* reports: "According to a prominent Egyptian cleric, if Muslim Brotherhood candidate Mohammed Mursi wins the presidential election, Egypt's new capital no longer will be Cairo.

According to Safwat Hagazy, Egypt's new capital will be Jerusalem.

These claims were made at a presidential rally aired on the Egyptian *Al-Nas* TV station on May 1 and later re-posted on YouTube with English subtitles being added by MEMRI, the Middle East Media Research Institute...

In the video, crowds are seen waving both Egyptian, as well as Hamas flags.

Hagazy's speech continued to call for 'millions' of 'shaheeds' or

Muslim martyrs in the march to take Jerusalem...” (Mohammed Mursi has won the presidency of Egypt. The Egyptian Muslim Brotherhood is the most anti-Jew terror group ever. ### **Fatah to Israel: Do what we want, or face Intifada**

*Israel National News* reports: “If Israel does not surrender all the lands liberated in the Six Day War of 1967, set up an Arab state with Jerusalem as its capital, and make significant concessions in accepting as citizens descendants of Arabs who fled Israel in 1948, a third intifada should, and must, be conducted. The call for a new ‘uprising of the people’ against Israel was part of a the summation statement issued at the end of the two day Palestinian Revolutionary Council (PRC) general meeting. The meeting was led by Palestinian Authority chief and Fatah party head Mahmoud Abbas.

The statement declares its support for Abbas’ ongoing refusal to back down from positions that have proven unacceptable to Israel in the past, including demands that Israel agree in principle to accept as citizens descendants of Arabs who fled their homes in 1948. Abbas has also declared that he will refuse to discuss anything with Israel until all settlement activity is ended. That precondition has also been unacceptable to Israel, but in its statement, the PRC said that it supported Abbas on that as well...” (More Islamic terrorist threats; they will all fail. ### **Iran’s president renews call for new world order**

*The Fars News Agency* reports: “Iranian President Mahmoud Ahmadinejad lashed out at the world powers for their wrong policies, and reiterated his call for the establishment of a new world order based on justice and friendship.”

‘The widening North-South divide and various crises and worries, including crises of family and identity, wars, occupations and revenge-seeking, endless arms races and economic, moral and ethical crisis and the failure to realize human principles are all the results of the current order and system dominating the world,’ Ahmadinejad said, addressing the Rio+20 Earth Summit in Brazil’s Rio de Janeiro.

‘We must cure such old wounds in the human society by reforming the existing global state and outlining a more transparent prospect for the future,’ he added.

‘During a lengthy period in the world, slavery, colonialism and record plundering of cultures, identities and possessions of hundreds of millions of defenseless people as well as the destruction of their integrity, freedom and rights had gained prominence; and in yet another long era, we were witness to global wars such as those in Korea and Vietnam and the wars by Zionists (Israeli regime) against Palestine and regional nations, Lebanon and Gaza as well as the war (former Iraqi dictator) Saddam (Hussein) waged against Iran, NATO’s wars against Afghanistan and Iraq, Africa and the Balkans and other parts of the world,’ President Ahmadinejad noted...” (God has revealed to me in recent days through the writings of Martin Luther and John Calvin the founders of Lutheranism and the Five Points of Calvinism of the Reformed Church that the two legs of the image portray upcoming world history of Daniel 2:28, 31-34 that one leg is the European nations and the other is

### **Iranian media: Islamic world needs nuclear weapons**

*Israel National News* reports: “Iranian state-run media has published a commentary that stated, ‘The Islamic world should rise up and shout that a nuclear bomb is our right.’

The regime under Iranian President Mahmoud Ahmadinejad has constantly stated that its nuclear program is for peaceful purposes.

The commentary was published by *Fars News Agency*, which is run by the Revolutionary Guards tightly and usually publishes official opinion. It indicates that Iran is changing gears, said Erick Staklebeck, who writes for the *Christian Broadcasting Network*.

Staklebeck noted that the Islamic world already has nuclear weapons because Pakistan is known to have approximately 110 such weapons.

‘If Pakistan uses one of its nukes, it will be to the East, against its arch-rival, India. Iran, on the other hand, clearly has its sights set on the United States, Europe and Israel,’ he wrote.

The commentary, which he said he received from a friend, was written by Alireza Forghani, a former governor of southern Iran’s Kish Province and an analyst and a strategy specialist ‘in the camp of the supreme leader, Ayatollah Ali Khamenei.’

Iran could possibly rationalize its ‘peaceful objectives’ for nuclear power by arguing that a nuclear bomb would create peace if it were to be used on Israel to achieve Ahmadinejad’s stated objective of annihilating Zionism. Forghani wrote in February that Iran should stage a ‘pre-emptive’ strike on Israel.

Forghani wrote, ‘The fatwa from Imam Khomeini [the founder of Iran’s

Islamic revolution — ed.] said ‘all Islamic countries have Islamic blood.’ Therefore the Islamic world should rise up and shout that a nuclear bomb is our right, and disrupt the dreams of America and Israel.’

‘Having a nuclear bomb is our right. Israel would have been destroyed completely 30 years ago’ but remains because of its assumed possession of nuclear warheads...” **(Imam Khamenei has warned that if atomic warfare occurs, it matters not if millions of Muslims dies as a result. ### **Muslim states to change world’s political equations soon**

*The Fars News Agency* reports: “A senior advisor to the Iranian president said a look at the regional developments and the overwhelming waves of Islamic Awakening in the region displays that the Muslim countries will change all political equations of the world soon.

‘Given the regional developments and the rise of the waves of Islamic Awakening, the Muslim states of the region will be able to change all the world’s political equations in the very near future,’ Hojjatoleslam Seyed Ahmad Moussavi said.

He also pointed to the critical situation of the Zionist regime amid the spread of Islamic Awakening in the region, and said, ‘Today, Israel’s security situation has returned to the worst situation of past decades.’

‘On the contrary, the Islamic Republic of Iran has never enjoyed such a (high) level of political stability at any stage of the Islamic Revolution,’ Moussavi stressed...”

*WND.com* reports: “A new Hollywood film in the works that some are already calling blasphemous will portray Jesus as the product of His mother Mary being raped by a Roman soldier, and show that miracles mentioned in the New Testament were not real.

Paul Verhoeven, who directed previous hits including ‘Robocop,’ ‘Total Recall’ and ‘Basic Instinct,’ is basing the movie on his 2008 book, ‘Jesus of Nazareth.’

### **New kill count in ‘eradicating Christianity’ campaign**

*WND.com* reports: “A Muslim organization that has dedicated itself to eliminating Christians, and especially eradicating Christianity from its home territory in Africa, has turned in a new kill count of 19 more of the faithful.

Reports from Nigeria say that Muslims guerrillas this time killed at least that number with bomb attacks in the cities of Maiduguri and Kano.

The violence attributed to the Muslim group Boko Haram follows a weekend church suicide attack in the northern city of Bauchi.

Boko Haram claims responsibility for both episodes of violence.

The developments are alarming, experts say.

Open Doors USA and Worldwatch spokesman Jerry Dykstra notes that the sect already has killed at least 530 people so far this year.

‘Many of them are Christians,’ Dykstra said. ‘There have been at least seven suicide attacks, including churches, newspapers and police stations. Last year Boko Haram killed up to 1,000 Christians.’...”

The demands come from the Sunni opposition, whose leaders are seeking the ouster of Syrian President Bashar al-Assad, who is Alawite, an offshoot of the Shiites, *G2 Bulletin* has learned.

### **Pakistan mob burns man to death for ‘blasphemy’**

*BBC News* reports: “A Pakistani mob has taken a man accused of blasphemy from a police station and burnt him to death, police say.

The man was being held for allegedly burning a copy of the Koran in public. The incident took place on the outskirts of Bahawalpur, in Punjab province.

Witnesses said hundreds of people looked on as he screamed for help.

Pakistan’s controversial blasphemy law imposes the death penalty for insulting Islam, but it is rarely carried out.

The area where the lynching took place is home to hundreds of madrassas - religious schools - run by radical Islamist or sectarian groups.

Police said they detained the man after locals complained that he had desecrated the Koran.

But before the allegation could be investigated, thousands of angry people surrounded the police station, police said.

‘They were demanding that we kill him in front of them, or they’ll take him away and kill him themselves,’ police inspector Ghulam Mohiuddin told the *BBC*.

*WND.com* reports: "The Pentagon has revoked permission for a Christian ministry to produce Bibles for different branches of the military, marked with those insignias, after an anti-Christian group called them a threat to

national security.

In 2003, B&H Publishing, a division of LifeWay Christian Resources, was given authorization to use the official seals of the U.S. military branches on a line of Bibles. No government funds were used in the production of the Bibles, which contained devotional material unique to each service branch in much the same way they are tailored to other groups such as teens or children...

Nowhere in the Bibles did they state that they were endorsed by any government entity or military branch.

Despite this, last year the Military Religious Freedom Foundation sent

a letter to Secretary of Defense Leon Panetta demanding the military rescind its authorization to use the service emblems, saying it was a violation of church and state separation..." **(God help you to become the Christian you claim to be Mr. President. # KNOWLEDGE INCREASED

### **Physicists find evidence of new subatomic particle that resembles Higgs boson**

*Fox News* reports: "To cheers and standing ovations from scientists, the world's biggest atom smasher claimed the discovery of a new subatomic particle, calling it 'consistent' with the long-sought Higgs boson — popularly known as the 'God particle' — that helps explain what gives all matter in the universe size and shape.

'We have now found the missing cornerstone of particle physics,' Rolf Heuer, director of the European Center for Nuclear Research (CERN), told scientists.

He said the newly discovered subatomic particle is a boson, but he stopped just shy of claiming outright that it is the Higgs boson itself — an extremely fine distinction.

'As a layman, I think we did it,' he told the elated crowd. 'We have a discovery. We have observed a new particle that is consistent with a Higgs boson.'

The Higgs boson, which until now

has been a theoretical particle, is seen as the key to our understanding of why matter has mass, which combines with gravity to give an object weight. The idea is much like gravity and Isaac Newton's discovery of it: Gravity was there all the time before Newton explained it. But now scientists know what a boson is and can put that knowledge to further use.

CERN's atom smasher, the \$10 billion Large Hadron Collider on the Swiss-French border, has been creating high-energy collisions of protons to investigate dark matter, antimatter and the creation of the universe, which many theorize occurred in a massive explosion known as the Big Bang..." **(The physicists started thinking about this 30 years ago. Sixteen years ago 7,000 physicists and engineers from 100 nations got together to begin the building of this monstrous machine. It was going to cost \$10 billion and they were going to erect it at the Swiss France borders. They were going to have to go down 330 feet in the earth. If you got**

an elevator ride, that's 33 stories down. And they were going to put in that ground floor a 17 mile track circular. They call it the doughnut and the ring. And then they would put on the track a proton that would travel 186,000 miles per second. But wait a minute — they had two tracks opposing one another and they put another proton on the other also going 186,000 miles per second and they would ignite it and both would go around those rings, all 186,000 miles per second, 245 different times and then they had an intersect place in four different slots and when the two protons hit one another for a total of 372,000 miles per second, 14 trillion electronic volts took place, the big bang. Now I'd rather believe the following, it is easier to accept. *In the beginning God created heaven and earth,* Genesis 1:1. Wait a minute. His name is Yahweh, but here it's Elohim. Why? Because of a trinity anything that ends in "im", cherubim, seraphim, means

more than one. It's the trinity. They were all involved in creation. The Son, yes, Proverbs 30:4, *who's established all the ends of the earth? What's God's name, what's his son's name?* And believe it or not Psalm 104:30 says the spirit created and renewed the face of the earth. So there you have it. There is a Trinity. *Go ye therefore and teach all nations, baptizing them in the name of the Father, the Son and the Holy Ghost, Matthew 28:19. The grace of our Lord Jesus Christ, the love of God, and the communion of the Holy Ghost be with you all, II Corinthians 13:14. And then I love I John 5:7. There are three that bear witness, the Father, the Word and the Holy Ghost. And these three are one. No ifs, ands, or buts. That's it! And it was the Holy Spirit who was given the*

matter of superintending the writing of the scripture. *All scripture is given by inspiration of God, II Timothy 3:16, and holy men of God spake as they were moved by the Holy Spirit, II Peter 1:21. Jesus was given the job of superintending the creation of the world. Jesus? Jesus, the one that Verhoeven tries to minimize as being born through a rape by a Roman soldier. God forgive him. John 1:1, in the beginning was the Word, and the Word was with God, and the Word was God. Who is the Word? Verse 14, the Word became flesh. Who in the Trinity became flesh? Christ. Let's go back, in the beginning was Christ, and Christ was with God, and Christ was God. All things were made by him and without him was not anything made that was made. Verse 3, he was in the world and the world was made by him, verse*

10. Colossians 1:16, *for by Christ were all things created that are in heaven and that are in earth, visible and invisible, whether they be thrones, dominions, principalities or powers all things were created by Christ and for Christ. And by him all things consist. And he made the worlds Hebrews 1:2. Soon we are going to see Jesus face to face and our lifetime of service to Christ will be judged. If we have been faithful we will lay our rewarded crowns at the feet of Jesus – Revelation 4:10. As we do we will be praising the Savior as recorded in Revelation 4:11 saying: thou art worthy Jesus to accept glory, honor and praise. For thou hast created all things and for thy pleasure they are and were created.)*

## NEWS FROM RUSSIA

### **Russia sends naval flotilla to its base in Syria**

*Israel National News* reports: "Russia has sent a naval flotilla of seven warships led by an anti-submarine destroyer to its naval base at the Syrian port of Tartus, the *Interfax* news agency reported.

*AFP* quoted the report as having said that the Admiral Chabanenko and three landing craft have left their home port of Severomorsk in the Arctic Circle on their way to the Mediterranean. They will be joined by the Russian patrol ship Yaroslav Mudry as well as an assistance vessel.

The patrol ship *Smetlivy* from the Russian Black Sea Fleet's base in the Ukrainian port of Sevastopol is also on its way to Tartus, *Interfax* added.

'The program of the voyage includes a call in the Syrian port of Tartus,' the unnamed source told the news agency,

adding the trip was taking place in line with the plans of military readiness of the Russian fleet..." (Syria will be aligned with Russia during World War III – Ezekiel 38:1, 2, 8, 16; Isaiah 17:1.)

### **Outside view: 'Reset' with Russia**

*SpaceWar.com* reports: "Perhaps the biggest waste of U.S. funds in the conduct of U.S. President Barack Obama's foreign policy to date has been its smallest expenditure.

Whatever the U.S. government paid for the 'reset' button, delivered to the Russians early in Obama's tenure as a symbolic gesture of improving a relationship, which had soured under President George W. Bush, has proven a waste of money.

In Vladimir Putin, we bear witness to an aspiring totalitarian who has successfully used the framework of

democracy in his own country to build the foundation of a dictatorship and who perceives opposition, both foreign and domestic, as a danger to the world order he believes will best guarantee his international influence.

He has taken the reset environment the United States sought to create in its relationship with him as a green light to pursue his personal objectives — objectives totally out of sync with those of the United States..." (Obama's secret deal according to *The New York Times*, the forsaking of missile bases in Poland and the Czech Republic if Russia holds Iran under control has failed. Iran joins Russia during World War III – Ezekiel 38:1, 2, 5, 8, and 16. Remember, Persia of verse five became Iran in 1935.)
